

CATRAHONE Domestic Knife Sharpener

for **HOME KITCHEN KNIVES** and **HOBBY USE**

Designed and manufactured by
Cutlery & Allied Trades Research Association

Designed to the same exacting standards as our larger commercial machines, the CATRAHONE Diamond Power sharpener provides your home with high quality sharpening to factory levels of sharpness.

- Suitable for all sizes of plain-edge knives, including concaved edge knives.
- Capable of sharpening the blade of utility knives.
- Achieves consistent sharpness between different knives.
- No skill required, just plug in and sharpen.
- Creates a smooth honed cutting edge, not a torn jagged one.
- Unlike many other domestic sharpeners, it does not scratch the blade sides.
- Restores worn out cutting edges in under 2 minutes.
- Diamond honing wheels allow maintenance sharpening in less than 20s per knife.
- Easy to clean and maintain – dust magnet reduces airborne contamination.
- Lightweight and portable, strong plastic body, non-slip rubber feet on the base.
- Safe to use with no open moving parts.
- Left-handed version available, providing natural comfortable operation for left handers.

The CATRAHONE provides the user with three operating slots, each with its own purpose:

- ONE: Restoration of very worn blades
- TWO: Everyday sharpening of most blades
- THREE: Final super smooth honing

The CATRAHONE is unlike any other dry sharpener. It does not need water cooling yet does not overheat the cutting edge. This provides your blades with maximum edge life, up to 100% more life than other electric sharpeners. Compared to a sharpening steel, it is sharper, faster, simpler to use and much safer.

Sharpened Angle	34° inclusive angle (17° per side)
Grinding Wheel Diameter	20mm
Motor	24V DC (from 230V or 110V), 200W
Size	200mm x 60mm x 80mm
Weight	1kg

Regularly sharpened plain edge knives on this machine are so sharp that they can slice bread better than a serrated bread knife, creating a smooth slice with the minimum of effort. Extensive testing within our knife laboratories indicate that the unit will give 8-12 years excellent sharpening in standard kitchen use, before the sharpening wheels need replacing.

- **Money back guarantee:** 12-month warranty.
- Secure card payment facilities.
